Published: 29 June 2020

Due to an error during the manuscript registration process FONDECYT (Chile) was incorrectly written out as “Fondos de Desarrollo de la Astronomía Nacional” instead of “Fondo Nacional de Desarrollo Científico y Tecnológico” of Chile. Additionally, grant no. 19-17-00240 was incorrectly attributed to the Russian Foundation for Basic Research instead of the Russian Science Foundation.

We also add the following corrections and additions to the Financial support section: Gary Shaffer has been supported by Fondo Nacional de Desarrollo Científico y Tecnológico of Chile (grant no. 1190230). Additional financial support was provided by the ANID Millennium Science Initiative/Millennium Nucleus Paleoclimate NCN17\_079. Alexey V. Eliseev was supported by the Russian Foundation for Basic Research (grant no. 18-05-00087). Igor I. Mokov was supported by the Russian Science Foundation grant no. 19-17-00240. Charles Koven acknowledges support by the Director, Office of Science, Office of Biological and Environmental Research of the U.S. Department of Energy under Contract DE-AC02-05CH11231 through the Regional and Global Model Analysis Program (RUBISCO SFA), and the Early Career Research Program. The CESM project is supported primarily by the National Science Foundation.
